

FACILITATING GLOBAL LEARNING – INTRODUCTORY COURSE

Assistance and Programs for Sustainable Development – Agenda 21 invites you to participate in the **introductory course on the theme of global learning** that will take place on **September 18th, 2014, in Bucharest** and it is addressed to **CSOs' representatives that work or are interested in working in the field of global learning and adult education.**

The agenda of the course will include: knowing the participants, presentation of the project, presentation of the conclusions of the study “Global What – Study on Facts and Needs of Global Learning in Germany, Portugal and Romania”, informing the participants on the test course in global learning (which will have four modules organized during October 2014 – April 2015), identification of the training needs of the participants in the field approached by the course and establishing the selection criteria for the participants in the test course.

The selection process of the CSOs' representatives that will be motivated and interested in participating in the 4 modules will take place after the introductory course (16 participants / one person / organization).

The introductory course is part of the project **Facilitating Global Learning – Key competences of Members from European CSOs**, implemented by a consortium formed by 5 organizations, the leader being DEAB Germany, and APSD – Agenda 21 is the national partner in Romania. The project is addressed to member of NGOs and it aims at **improving the quality of global learning and at training members of NGOs that are involved in global learning projects or that are interested to develop projects in the field.**

We ask the interested NGOs to send us their confirmation of participation along with the name and contact details of their representative at e-mail monica.cugler@agenda21.org.ro by September 12th, 2014.

The location of the event will be announced. The organizers will provide lunch and coffee breaks. The transport expenses can be covered by the organizers.

Best wishes,

Monica Cugler
Project coordinator
